20 Applications Received For Superintendent

With a score of applications already received for the position of superintendent of schools following the resignation of Supt. Kenneth L. Sherman to enter private business, the school committee at a special meeting Tuesday night set Tuesday, Apr. 7 as a deadline for receiving further applications.

The committee also decided that starting next Tuesday it will meet for several consecutive Tuesday nights to interview four men each night who are candidates for the position. In this way it will take several more weeks before the board is ready to fill the position.

All members were present at the meeting. The minutes of the Mar. 17 meeting were read by the secretary, William A. Doherty, and approved.

It was voted on motion of Mr. Doherty seconded by Mrs. Dorothy T. Partridge that the resignation of Supt. Sherman be effective May 4 instead of Apr. 27.

Many Urge Teaching Of French In 3rd Grade

Far from being a dormant issue after its defeat at the town meeting the question of teaching conversational French in the grade schools is still very much alive.

Sides have been taken and the school committee is hearing from numerous sources on the issue.

At present the instructors from Phillips academy who volunteered their services to give the course in the Central elementary school are still going ahead with the subject.

Meanwhile communications have been received by the school committee for and against the plan.

At a recent meeting some members of the committee stated they felt the vote of the town meeting in dropping \$1400 from the school budget, which was to provide a teacher for this course, was a mandate from the voters to drop the subject. Others wished to get a further expression of public opinion. It was voted to postpone further consideration of the subject until December when the school budget for the following year will be made up.

Many of the communications urging continuance of the program have come from the parents of the grade school youngsters who

The Wahanka group of camp fire girls celebrated the 43rd birthday of the organization by giving a tea in honor of their sponsors and invited guests, at the home of Mrs. Byron Weiner on Lincoln st., last week. Mrs. Weiner and Mrs. Walter Curran are the sponsors and the guests were Mrs. James Byrnes, Mrs. Alan Dunlop, Mrs. Jack Young and Miss Lane. Hostesses for the tea were Barbara Curran, who welcomed the guests, and Jacqueline Weiner, Anne Woodcock and Patricia Burns who conducted the candle-lighting ceremony. Mrs. Martin Burns and Mrs. Olga Morin are the leaders, and the other members of the group include Marion Baer, Jane Ann Bevan, Patricia Flaherty, Linda Murach, Linda Plummer, Beverly Reynolds, Marilyn Roberge, Donna St. Laurent, Janice Snow, Elizabeth Homer, Jessie Gill and Susan Bradley.

Successful Play

The play, "Goodby My Fancy", played to near capacity audiences last Thursday and Friday evenings in Memorial auditorium in spite of the inclement weather. All who

saw it were high in their praise of the excellent performances. Not only were the cast and director to be commended, but all the many persons working on committees of all kinds deserve equal appreciation. The Shawsheen Village Women's club and the Boosters club, worked together to produce a very worth while show.

After the final performance, all of the groups assembled at the Andover Country club to enjoy a short period of rest and relaxation, and to form a mutual admiration society. In the spirit of fun, Hal Wennik acted as master of ceremonies and presented "Oscars" to the director, the leading lady and several of the supporting players.

It would appear that a "Little Theater" group is in the making and that more will be heard from them in the future, is an assured fact.

Dramatic Dept.

The Dramatic department of the club will meet at the home of Mrs. Alfred Quance, 95 Central st., on Friday afternoon at 2:30 o'clock. Mrs. Thomas Neil will be in charge of the program and Mrs. Philip Costello will be chairman of hostesses.

Social Security Aids Household Workers

The "cash" pay scale of household workers is generally in the lower brackets among wage earners, Miss Vose, manager of the Lawrence social security office, said today.

She pointed out the importance of the social security provisions which now give family and retirement insurance protection to people employed for work in and around private households. Such employees, she said, have little opportunity for adequate savings or investments to help meet living costs when old age takes away their wages; in many cases, family income ends entirely when the wage earner prematurely dies. Social security makes cash monthly payments to replace in part these losses.

She praised housewife-employers for their accuracy and completeness in filing wage reports for their employees, since their work was covered by social security commencing in 1951. She said, "Not only have the housewives shown they can and will cooperate to give their employees social security coverage, but they have shown a genuine and sincere understanding of the problems of the aged and orphaned in our population."

She said there is still some misunderstanding by new employers as to when their household employees must be reported. She expected there are two tests which must be met before employees in and around private households may be covered. They must perform some services for the same employer or some part of any twenty-four days in the calendar quarter and their gross cash earnings must be \$50 or more for such time.

MANY URGE FRENCH IN THIRD GRADE

(Continued from Page One)

have observed the results of the course in their own children. Others felt with the expanding school population and the growing school budget the money could be better spent in other directions. They urge the committee to stand by the vote of the town meeting.

One petition signed by about 85 persons and addressed to Gordon L. Colquhoun, chairman of the committee, said that the strong "no" vote at the town meeting at a time where there was a large attendance present represented the wishes of the townspeople better than the vote of the small number at the end of the meeting. It went on to say: "We hope that you will not be unduly influenced by small pressure groups who are apparently seeking to undermine the effectiveness of the original vote."

"In addition to the fact that we are greatly disturbed by the ethics of the pressure groups, we are also greatly alarmed by the rapid increase in the school budget and its effect on the town tax rate and we do feel that everything possible should be done to keep down expense. The omitting of French

instruction in the elementary schools seems a logical place to begin.

The following signed the petition: Ronald M. Valentine, 53 Red Spring rd.; Jessie A. Kinnear, 7 Argyle st.; Mary A. Ness, 89 N. Main st.; Lindsay Kinnear, 7 Argyle st.; James W. A group from Ballardvale preface its protest with the following remarks: "In view of the fact that we have over crowded conditions in our schools at present and that Ballardvale will need a new school shortly we think it unwise at this time to spend money to have French taught in the elementary grades."

Land Of Opportunity

Everyone is fascinated by a success story. Making good against odds is inspiring. America became a great nation because it was a land of opportunity and the right of the individual to make the most of those opportunities was protected.

Buchanan, Georgia, after World War II was about as near destitute as any community could be and still not become a ghost town. With a population of about 500 it lay in a declining cotton area. Young folks were leaving to seek work elsewhere.

At the end of the war a couple of veterans who lived in Buchanan decided to do something about the situation. They enlisted the support of townspeople to build a factory. Then they interested a large shirt manufacturing concern in leasing the factory. The result was the town literally lifted itself by its boot straps out of oblivion.

Hundreds of local people were employed in the factory. Within a year there was money to pave the court house square, build a new Baptist church, a movie theater, a new drug store and a dry cleaning plant. A baseball club was formed. Young people stopped migrating to cities.

The story of Buchanan, Georgia is significant for two reasons. First it shows that this country is still a land of opportunity, and secondly it shows that local problems can be solved without subsidies or handouts.

The Finest Thing

A man serving overseas in the war area of Korea was asked what could be done for the fighting men in the way of gifts. He replied in no uncertain terms that "the finest thing to be done is the maintenance of a politically and economically sound home front." He said further that, "With a reasonable degree of integrity on the part of most people, that will be brought about."

To do the things necessary to assure men on the war fronts that there will be such an America to return to is not too much to demand of every American on the home front.

NEW BOOKS

Land And People In The Philippines.

A study of the geographic problems in rural economy. After three centuries of Spanish control which restricted expansion of Philippine economy and centralized power and wealth in small groups, America took over control and seemed to improve methods but left the people still dependent on others. This book points out the zones of American failure and lines up methods of reform. Author is professor of geography at the University of California and lived many years in the Orient.

Mafia.

Black Hand, the Mafia, which began in medieval Sicily as a patriotic group, is still in control of organized crime in the United States.

States by systematic liquidation of rival, non-Sicilian gangs. Much material for this book comes from secret sources, since the author, Ed Reid, names names, places and gives dates. Reid exposed the New York police bookie tie-up and won 1950 Pulitzer prize award.

A Many-Splendored Thing,

Han Suyin.

Han Suyin and nine year old daughter came to Hong Kong in 1949, after her husband, a Nationalist general had been killed fighting the Communists. She became a resident doctor in Hong Kong hospital where tuberculosis was rampant. This is her true story of her love for Mark Elliott, an English correspondent who was not free to marry. Beautiful book!

Annapurna,

Herzog.

Thrilling, almost unbelievable story of the heroic conquest of the highest mountain ever climbed—26,493 feet. Maurice Herzog, leader of the French Himalayan expedition, tells the story.

Merry Hall,

Nichols.

Beverley Nichols takes over a fine old Georgian house and a deserted garden and restores both against a background of rural England. He says this is a "mostly true" book. Much in the manner of his earlier "Down The Garden Path."

Nineteen From Seventeen

Principle characters of these nineteen stories from Seventeen Magazine are almost never over 20 years old. A serious picture of a delightful, if troubled age.

To The Moment Of Triumph,

Frankau.

An interesting version of a spiritual adventure for five people who are searching for that moment of triumph which is the moment when a man knows that he can face up to himself with honor and pride.

"From the minute I get up until I arrive at work, I take it easy. I allow plenty of time for breakfast. My wife drives me to the B and M Station and I read the paper on the train. I don't have any traffic strain or worry, don't have to find a place to park or pay for one either."

CLEAN-UP WEEK OPENS APRIL 12

(Continued from Page One)

In this respect Chief Buchan called attention to the fact that fire is one of the greatest dangers children face nowadays, and he urged parents to devote some time to the clean-up to make their homes a safer place for children to live.

Citing recent reports from a leading life insurance company and the office of vital statistics, Chief Buchan pointed out that fire is the principal cause of fatal home accidents to children aged 5 to 14. At least 600 children in this age group die every year as a result of fire.

Children can be taught fire safety rules as easily as they learn their ABC's, but no one should assume that a child will understand what is dangerous without being told. Therefore, beside teaching a child basic principles of safety, it is the parents' responsibility to see that dangerous conditions do not exist in and around the home.

Persons who wish to burn grass or rubbish are reminded that permission must first be obtained from the fire department. This can be done by phone.

HUMAN TRAITS

The weakest thing about any government in a democracy is that it is made up of individuals with human traits.

Maureen P. Higgins Guest At Shower

Miss Maureen P. Higgins, daughter of Mr. and Mrs. John F. Higgins of Main st., was honored at a linen shower held recently at the home of Mrs. Augustine A. Donovan of Sheridan st., Lawrence. Miss Higgins is to become the bride of William F. O'Connell Jr., son of Mr. and Mrs. William F. O'Connell of Dorchester.

A social evening was enjoyed and a buffet luncheon was served by the hostess. An arrangement of pink and white snapdragons flanked by twin triple candelabra with pink tapers centered the table. Mrs. Genevieve Madden and Miss Anne Harnedy presided at the coffee urns.

GIVES SAFETY SHOW IN GRADE SCHOOLS

(Continued from Page One)

day the demonstration was presented at the Central, Shawsheen, West and Bradlee schools; Tuesday at St. Augustine's and the Pike schools.

Using a shadow box and a colored sound-slide film, Miss Ballou tells the story of a young boy, Peter, and his traffic conscious dog, the Whiffle-Hound, who leads his master safely to a birthday party by flashing his eyes red when danger threatens and green when conditions are safe.

During the Andover presentation, each child who saw the show received a colored picture booklet of "Peter and the Whiffle-Hound." This presentation is part of the current series of visits to Massachusetts cities and towns by Liberty Mutual in the interest of pedestrian safety for early school age children. The campaign has been endorsed by the registrar of motor vehicles, Rudolph F. King and others as an outstanding public service.

CALL MEETING TO DISCUSS FRENCH

(Continued from Page One)

and his colleagues, Floyd T. Humphries and Stephen Whitney, all three volunteer French teachers in the current program, will be glad to answer questions from the floor.

It is hoped that the discussion following Dr. Grew's presentation will answer the following among others: Will one extra teacher be sufficient? Will French take class time away from the basic 3 R's? Why should a second language be taught to young children? Is another language important in training for citizenship? How many public school systems are including elementary French?

Members of the finance committee, the Taxpayers association, the PTA's of the Shawsheen, West Center, Ballardvale, and Central elementary schools are urged to attend, and particularly any individuals or groups who are strongly opposed to the teaching of a foreign language in the elementary grades.

Information

For Veterans

Q—I am a World War II veteran, and after the war I moved to England to accept a job. Could I get a GI loan to buy a home in England?

A—No. GI loan benefits are not available for properties or businesses situated in foreign countries.

Q—Does VA exercise control or supervision over schools training veterans under the GI Bill?

A—No. The law specifically prevents VA from controlling or supervising schools. Supervision is entirely a responsibility of the states.

Q—My NSLI term policy is soon due to expire. May I renew it for an additional term period, at my attained age, or does the new "free insurance" law prevent me from doing so?

A—The insurance may be renewed for an additional term period, provided you do so before your insurance expires. Once the insurance expires, it may not be renewed.

Q—I recently was discharged from the WAC and would like to take a full-time course in school under the Korean GI bill. I am married, and my husband has a full-time job. We have no children. Would I be entitled to the \$135-a-month allowance paid to a veteran with one dependent?

A—No. Under the law, a woman veteran would be entitled to the \$135-a-month rate only if her husband were "in fact" dependent on her.

Need \$2000 More In Red Cross Fund

With several warm spring days as a reminder that summer will soon arrive, the Red Cross also notes that summer is also the polio season.

The Red Cross has agreed to expand its blood collections to provide the maximum amount of gamma globulin possible. This is the substance which is the most powerful weapon to date against the paralyzing effect of polio. This new responsibility will draw heavily upon the financial resources of the organization. In 1953 alone it will cost the Red Cross \$7 million above its other requirements.

With the 1953 Red Cross drive now going on local people are reminded that here in Andover \$2000 is still needed in order for the local chapter to do its share of this assignment, along with other services the chapter is pledged to provide.

Those who have not already made their contributions are urged to do so. Some, who have already given, may be able to spare a little more to help make the local campaign successful.

Gifts may be mailed or delivered to the chapter headquarters, 8 Elm square.
